

ALI Imagery of Oil at Chandeleur Islands, Louisiana (May 2010)

May 5, 2010  
True-Color Image from ALI  
Oil Reaches Chandeleur Islands, Louisiana

Light tan streamers snake across Chandeleur Sound in this detailed natural-color satellite image from May 5, 2010. The streamers are probably ropes of oil from a leaking well in the Gulf of Mexico. The streamers surround Freemason Island and arc through Chandeleur Sound west of the Chandeleur Islands.
